

I got you a shiny new bike

To

I decided to get you a gift that makes a difference. Through Brighter Futures Zambia, I've bought you a bike! Well, actually, I've bought a *Zambian* community a bike. The bike is a gift that will be shared around the community. The older kids might use it to go to school and Wellbeing sessions, and their carers can use it to attend meetings, to go to buy food or to run errands for their small businesses.

From

Brighter Futures Zambia is a small charity that makes a big difference to orphans and vulnerable children in Zambia. Their mission is to help them complete their education and live happier, healthier and safer lives.
