

A gift that really makes a difference

To

I decided to get you a gift that will help improve the lives of orphans and vulnerable children. I've bought a place for a vulnerable child at one of Brighter Futures Zambia's weekly Wellbeing sessions. They will spend time with a caregiver trained in child counselling and they will learn about issues like abuse, early marriage and HIV/Aids prevention. Best of all, they will have fun playing and sharing a meal with other young people in their community groups.

From

Brighter Futures Zambia is a small charity that makes a big difference to orphans and vulnerable children in Zambia. Their mission is to help them complete their education and live happier, healthier and safer lives.
